MANUFACTURING AGREEMENT

INTERSTATE COMMERCE COMMISSION

Manufacturing Agreement dated as of October 15, 1985 between Trinity Industries, Inc. Pullman Standard Manufacturing Division, a Texas corporation (the "Manufacturer") and TRAILER TRAIN COMPANY, a Delaware corporation (the "Company").

WHEREAS THE Manufacturer agrees to construct, sell and deliver to the Company and the Company agrees to purchase the units of new, standard gauge railroad equipment (hereinafter referred to individually as a Unit and collectively as Units or the Equipment) described in Item 1 of Annex A attached hereto and described in Annex A to any Manufacturing Agreement Supplement substantially in the form of Annex B hereto (Annex A to any such Manufacturing Agreement Supplement being hereinafter included within the meaning of Annex A hereto);

WHEREAS the Company may enter into an equipment trust agreement or conditional sale agreement with a corporate trustee or agent (the "Trustee") which will pay the Purchase Price for the Equipment on the Closing Date (Purchase Price and Closing Date being hereinafter defined), or the Company may assign its rights hereunder pursuant to an Assignment of Manufacturing Agreement in substantially the form of Annex C hereto to a lessor (the "Lessor") which will perform substantially all covenants and obligations of the Company hereunder, including the execution of an equipment trust agreement or conditional sale agreement with the Trustee; and

WHEREAS the Company will pay the Purchase Price for the Equipment or cause the Trustee or the Lessor to make such payment, and will perform its obligations hereunder;

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements hereinafter set forth, the parties hereto do hereby agree as follows:

ARTICLE 1. Contract: Upon its execution, this Manufacturing Agreement, including pertinent drawings and specifications referenced in Item 1 of Annex A hereto or attached as exhibits hereto, if any, (the "Specifications") shall constitute the entire agreement between the parties and shall supersede all prior offers, negotiations, and agreements relating to the subject matter hereof.

ARTICLE 2. Construction and Sale: Subject to the terms and conditions hereinafter set forth, the Manufacturer will construct the Equipment and will sell and deliver the Equipment as hereinafter set forth, and the Company will pay or cause the Trustee or Lessor to pay to the Manufacturer the Purchase Price (as hereinafter defined) of the Equipment, each Unit of which will be constructed in accordance with the Specifications set forth herein.

The Manufacturer will, at or before delivery thereof to the Company pursuant to Article 3 hereof, have the following ownership markings stencilled on each side thereof in a conspicuous place in letters not less than one inch in height:

"OWNERSHIP SUBJECT TO A SECURITY AGREEMENT FILED WITH THE INTERSTATE COMMERCE COMMISSION."

Design and construction of the cars will conform to AAR Specifications for the design, Fabrication and Construction of Freight Cars, M-1001, in effect as of the date hereof including Chapter VIII Design and Test Requirements for Articulated and Multiple Unit Trailer/ Container Transport Cars except for the impact cushioning requirement on containers and Plate "C" clearances.

ARTICLE 3. Delivery: The Manufacturer will deliver the Equipment to the Company, at such point or points within the United States of America as shall be determined by the mutual agreement of the Manufacturer and the Company and in accordance with the time of delivery schedule set forth in Item 1 of Annex A hereto; provided, however, that no Unit of the Equipment shall be delivered under this Agreement until this Agreement shall have been filed and recorded with the Interstate Commerce Commission in accordance with 49 U.S.C. Section 11303 (a).

The Manufacturer represents and warrants that at such time the Equipment will be new railroad equipment and that, to the best of its knowledge, no amortization or depreciation will have been claimed by any person with respect thereto.

The Manufacturer and the Company shall each be excused for delays in delivery or acceptance if unable to do so because of causes beyond the control and without fault or negligence of each, the Manufacturer or the Company. As used in this paragraph, causes beyond control may include, but are not limited to Acts of God, war, acts of the Government both in its sovereign and contractual capacity, fires, floods, epidemics, strikes, embargoes, damaged facilities, severe weather conditions, provided that the failure to perform shall be beyond the control of the asserting party and without fault or negligence.

In no event shall the Company be responsible for labor cost increases resulting from or occurring during an event of force majeure. In addition, the Company shall not be responsible for material cost increases in any way resulting from or occurring during a strike at Manufacturer's plant, or for material cost increases resulting from or occurring during other events of force majeure unless it can be evidenced that such material was unordered as of the date of the occurrence of the event of force majeure.

Notwithstanding the preceding provisions of this Article 3, any Unit of the Equipment not delivered and accepted on or before the date set forth in Item 2 of Annex A hereto and not settled for

pursuant to Article 4 hereof shall be excluded from this Agreement and not included in the terms "Equipment" or "Units" as used in this Agreement. In the event of any such exclusion the Manufacturer and the Company shall execute an agreement supplemental hereto limiting this Agreement to the Equipment theretofore delivered, accepted and settled for hereunder. If the Manufacturer's failure to deliver the Units of the Equipment so excluded from this Agreement resulted from one or more of the causes set forth in the immediately preceding paragraph, a separate agreement shall be entered into between the Manufacturer and the Company providing for the purchase of such excluded Equipment by the Company on the terms herein specified, payment to be made after delivery of such excluded Equipment either directly or by means of a conditional sale, equipment trust or such other appropriate method of financing the purchase as the Company and the Manufacturer shall mutually determine. Notwithstanding the preceding provisions, the Company will be under no obligation to enter into a separate agreement for the purchase of cars excluded from this Agreement as a result of a strike at Manufacturer's plant.

The Equipment shall be subject to inspection and approval prior to delivery by inspectors or other representatives of the Company, and the Manufacturer shall grant to any such inspector or other authorized representative reasonable access to its plant. From time to time upon the completion of the construction of each Unit or a number of Units of the Equipment, each Unit shall thereupon be presented to an inspector or other authorized representative of the Company for inspection at the Manufacturer's plant and, if each such Unit conforms to the Specifications and other requirements set forth herein, such inspector or authorized representative shall promptly execute and deliver to the Manufacturer, in such number of counterparts or copies as may be reasonably requested, a certificate of acceptance (hereinafter called a Certificate of Acceptance) substantially in the form of Annex D hereto stating that such Unit or Units have been inspected and accepted on behalf of the Company and are marked in accordance with Article 2 hereof; provided, however, that the Manufacturer shall not thereby be relieved of its warranty contained in Article 9 hereof.

On acceptance of each of the Units of the Equipment, pursuant to this Article 3 on behalf of the Company as aforesaid, the Company assumes with respect thereto the responsibility and risk of loss or damage.

ARTICLE 4. Purchase Price and Payment. The price per Unit of the Equipment is set forth in Item 1 of Annex A hereto.

The Company shall have the right, from time to time, by written change order, to make changes in drawings, specifications, instructions in connection with the work, place of delivery, time or method of shipment, to require additional work or to direct the omission of work, and the Manufacturer agrees to comply with such change orders provided, however, the cost of such change be accepted in advance by both parties. If such changes cause any increase or decrease in the

Manufacturer's cost or in the time for performance of this Agreement, an equitable adjustment in the price and time for performance will be made and this agreement will be modified in writing accordingly; provided that any claim for such adjustment shall be asserted by the Manufacturer in writing within thirty days after the change is ordered. No change whatsoever is to be made except upon written change order issued by the Company's Purchasing Agent.

The term "Purchase Price" as used herein shall mean the price set forth in Item 1 of Annex A hereto as may be increased or decreased pursuant to this Article 4.

The Manufacturer agrees and represents that the Purchase Price of the Units covered by this Agreement will not be in excess of the Manufacturer's lowest price for comparable units of equipment in effect on the date of shipment of the Unit or Units. If any price lower than the Purchase Price is offered by the Manufacturer on similar units the Manufacturer agrees to make a corresponding reduction in the Purchase Price of Units shipped on or after the date such price reduction is offered.

All dies, tools, patterns, drawings, or fixtures, furnished or specifically paid for by the Company are or are to become the property of the Company and are subject to removal upon the Company's request. The Manufacturer is not permitted to use the same for any other customer without the Company's prior written approval.

The Company's Engineering and Research personnel may render assistance or give technical advice to or otherwise exchange information with the Manufacturer's personnel during the performance of this Agreement. Any such exchange is understood not to affect the Specifications and directions given under this Agreement or to change the price applicable hereunder unless authorized in writing by the Company's Purchasing Agent.

All increases in the price of material shall be subject to audit either by the Company or by an independent public accounting firm of recognized standing selected by the Company. In connection with such audit all necessary documents and records necessary to substantiate and verify such increases shall be made available to the Company. All price increases shall be reported to the Company by item, lot number or in such other detail as may be reasonably requested by the Company in order to verify the accuracy of such increases.

Any labor cost increases, which company may agree to, shall be subject to audit by an independent public accounting firm of recognized standing, appointed by the Manufacturer and approved by the Company.

Allowances for increased inventory carrying charges or interest charges arising from payments for materials by the Manufacturer are specifically excluded from any price increases unless previously approved in writing by the Company. Premiums or additional materials charges resulting from materials purchased by the Manufacturer from

sources of supply not customarily used are specifically excluded from any price increases unless previously approved in writing by the Company, and such approval shall not be unreasonably withheld.

The Equipment shall be settled for on one or more Closing Dates fixed as hereinafter provided (the Equipment settled for on a Closing Date being hereinafter called the Group).

Subject to the provisions of Article 5 hereof, the Company hereby promises to pay or cause to be paid in cash to the Manufacturer at such place as the Manufacturer may designate, (a) on the Closing Date with respect to a Group, an amount equal to the Purchase Price of all Units of the Equipment in the Group as set forth in the invoices therefor and (b) within five business days of the Closing Date with respect to a Group, an amount equal to interest (computed on the basis of a 360-day year of twelve 30-day months) at the Prime Rate on the Purchase Price of such Units for each day that the average number of days between acceptance and the Closing Date for the Group exceeds 30 days. Prime Rate as used herein shall mean the rate per annum equal to the rate which Manufacturers Hanover Trust Company, New York, New York charges for 90-day unsecured loans to large corporate borrowers of the highest credit standing for the period such interest is payable; provided, however, that changes in such rate occurring during the ten business days preceding the Closing Date shall be disregarded, and provided, further, that if the invoice for such amount is not received at least ten business days prior to such Closing Date, such amount shall not be required to be paid until ten days after the receipt of such invoice.

The term "Closing Date" with respect to the Group of the Equipment shall mean the date set forth in Item 3 of Annex A hereto or such other date specified by the Company, but in no event shall such date be later than six months from the date of acceptance and delivery of the first unit of any Group of the Equipment hereunder.

If the Manufacturer shall not receive on the Closing Date the amounts payable to the Manufacturer in respect to the Group pursuant to the tenth paragraph of this Article 4, the Manufacturer will promptly notify the Company of such event and, if such amounts shall not have been previously paid and the Manufacturer shall have otherwise complied with the conditions of this Agreement to entitle the Manufacturer to receive payment hereunder, the Company will, not later than 60 days after the Closing Date, make payment to the Manufacturer of such amount, together with interest at 1% above the Prime Rate on the Purchase Price from such Closing Date to the date of payment by the Company. If the Company shall not make payment as aforesaid, the Company will execute such instruments and take such other action as shall be reasonably requested by the Manufacturer to vest in the Manufacturer or its designee full title to such Equipment, whereupon the Manufacturer may, at its election, terminate this Agreement, and sell, lease, retain or otherwise dispose of such Equipment. The Manufacturer may at any time take such other actions and exercise such other remedies as may be permitted by law or by

this Agreement; provided, however, that the Company shall not thereby be relieved of its obligations to make payment to the Manufacturer as aforesaid.

All payments provided for in this Agreement shall be made in such coin or currency of the United States of America as at the time of payment shall be legal tender for the payment of public and private debts.

The Manufacturer shall and hereby does retain a security interest in each Group of the Equipment until the Manufacturer shall have been paid the Purchase Price in respect of the Equipment pursuant to this Article 4, notwithstanding the delivery of the Equipment to and the possession and use thereof by the Company. Except as otherwise provided in this Agreement, upon payment to the Manufacturer of the Purchase Price (a) such security interest shall be duly transferred and assigned by the bill or bills of sale executed and delivered by the Manufacturer pursuant to Article 5 hereof and (b) any and all claims, liens, security interest or other encumbrances of any nature in favor of the Manufacturer with respect to the Equipment shall forthwith cease and terminate.

ARTICLE 5. Conditions to Obligations of the Company. On any Closing Date the Company shall pay or cause to be paid to the Manufacturer the amount required to be paid pursuant to the tenth paragraph of Article 4 hereof with respect to the Group of the Equipment then being settled for provided that there shall have been delivered to the Company, on or prior to the Closing Date, the following documents in such number of counterparts or copies as may reasonably be requested in form and substance satisfactory to it:

(a) a bill or bills of sale from the Manufacturer transferring all its right, title and interest in and to the Equipment in the Group to the Company and warranting to the Company that at the time of delivery of each unit of Equipment in the Group the Manufacturer had legal title to such unit and good and lawful right to sell the same and title to such unit was, at the time of such delivery, free from all claims, liens, security interests and other encumbrances of any nature except as created by this Agreement or any specified lease of the Equipment to which the Company is a party or equipment trust agreement or conditional sale agreement entered into to finance the purchase of the Equipment by the Company or the Lessor;

(d) the Manufacturer shall provide to the Company such documentation, recordable with the ICC, as the Company may request indicating that any and all security interests of the Manufacturer in the equipment have been extinguished;

ARTICLE 11. Manufacturer's Warranty of Materials and Workmanship:

a. The Manufacturer warrants for a period of three years after delivery that the Equipment to be delivered under this order will be built in accordance with the specifications and with the other requirements, specifications, and standards set forth or referred to in Article 2 of this Agreement and warrants that the Equipment will be free from defects in materials, workmanship and design under normal use and service; the Manufacturer's obligation under this paragraph being limited to making good at its plant, or at a place designated by the Manufacturer and agreed upon by the Company, any part or parts of any Unit of the equipment which shall be returned to the Manufacturer within three years after the delivery of such Unit, or as to which written notice of such defect has been given by the Company to the Manufacturer within three years after delivery of such unit and which part or parts are returned, transportation charges prepaid, within ninety days after such notice to the Manufacturer, provided that an examination of the part or parts by the Manufacturer, and the Company, shall disclose the existence of a defect or in the event the Manufacturer and the Company shall not agree, then by an independent third party (independent testing laboratory or government agency) acceptable to both the Manufacturer and the Company. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND OF ALL OTHER OBLIGATIONS OR LIABILITIES ON THE PART OF THE MANUFACTURER, EXCEPT FOR ITS OBLIGATIONS UNDER ARTICLES 2, 3, 4 and 10 OF THIS AGREEMENT. The Manufacturer neither assumes nor authorizes any person to assume for it any other liability in connection with the construction and delivery of the Equipment, except as aforesaid.

b. The Manufacturer also agrees to use its best efforts to include, as a condition of its purchase order with the vendor of any specialty purchased by the Manufacturer for incorporation in the Equipment, an agreement by such vendor to the effect that all warranty agreements and representations, if any, made by such vendor with respect to such specialty may be enforced by the Company, in the Company's own name; by the Manufacturer in the Manufacturer's own name; or by the Manufacturer and the Company jointly. The Manufacturer further agrees that, whether or not such an agreement is contained in any such purchase order, the Company may, at its option, to the extent permitted by law, take and prosecute claims against vendors of specialties purchased by the Manufacturer for incorporation in the Equipment for the breach of any warranty by the vendors to the Manufacturer with respect to such specialties. The Manufacturer and the Company agree to notify each other prior to the assertion of any claim by them against any such vendors of such specialties.

c. The Manufacturer further agrees that neither the inspection as provided in Article 3 of this Agreement nor any examination or acceptance of any Units of the Equipment as provided in Article 3

shall be deemed a waiver or modification by the Company of any of its rights under this Article 11.

d. It is further understood and agreed that the word "specialties" as used herein shall be deemed to include articles, materials, systems, formulae and processees.

ARTICLE 12. Taxes: This Agreement shall not impose on the Company any liability for payment or reimbursement of any tax or taxes now or hereafter imposed by federal, state, municipal or other government authority, including political subdivisions of the foregoing, upon the transactions hereunder, unless the Manufacturer in its acceptance of this Agreement and price quotations expressly specifies the nature and amount of the tax or taxes to be added thereto and such additional amount is further agreed to in writing by the Company.

ARTICLE 13. Notice. Any notice hereunder to the party designated below shall be deemed to be properly served if delivered or mailed to it at the following specified addresses:

(a) to the Vice President & Treasurer of the Company, at 101 North Wacker Drive, Chicago, Illinois 60606

(b) to the Manufacturer, at the address set forth in Item 4 of Annex A hereto.

or at such other addresses as may have been furnished in writing by such party to the other party to this Agreement.

ARTICLE 14. Assignments by the Manufacturer. All or any of the rights, benefits or advantages of the Manufacturer under this Agreement, including the right to receive the Purchase Price of all Units of the Equipment and interest thereon, if any, may be assigned by the Manufacturer and reassigned by any assignee at any time or from time to time; provided, however, that no such assignment shall subject any such assignee to any of the Manufacturer's guarantees, warranties, indemnities or other obligations contained in this Agreement or relieve the Manufacturer or a successor or successors to its manufacturing property and business from any of its obligations to construct and deliver the Equipment in accordance with the Specifications or to respond to its guarantees, warranties, indemnities or other obligations whether contained herein or created by law, or relieve the Company of its obligations to the Manufacturer under this Agreement, which, according to their terms and context, are intended to survive an assignment; provided, however, that except as otherwise provided in this Agreement any security interest in each group of the Equipment assigned hereunder shall cease and terminate upon payment to the Manufacturer or assignee, as applicable, by the Company of the amounts payable with respect to such Group pursuant to Article 4 and such assigned security interest shall be merged into the security interest in the Equipment created by any Equipment Trust Agreement in favor of a Trustee, or if an Equipment Trust Agreement has not then been

executed such interest shall forthwith cease and terminate upon such payment to the Manufacturer and the Manufacturer and such assignee will execute and deliver all documents and instruments as the Company may reasonably request, including without limitation an instrument for recordation with the Interstate Commerce Commission evidencing such cessation and termination.

Upon any such assignment, either the assignor or the assignee shall give written notice to the Company, together with a counterpart or copy of such assignment, stating the identity and post office address of the assignee (if not otherwise stated in the assignment), and such assignee shall by virtue of such assignment acquire all of the Manufacturer's right, title and interest in and to the rights, benefits and advantages of the Manufacturer thereby assigned subject only to such reservation as may be contained in such assignment. From and after the receipt by the Company of the notification of any such assignment, all payments thereafter to be made by the Company hereunder shall, to the extent so assigned, be made to the assignee.

In the event of any assignment by the Manufacturer of its rights to receive any payments under this Agreement, the rights of such assignee to such payments as may be assigned, together with any other rights hereunder which can be and are so assigned, shall not be subject to any defense, set-off, counterclaim, recoupment, or abatement whatsoever arising out of any breach of any obligation of the Manufacturer in respect of the Equipment or the manufacture, construction, delivery, guarantee or warranty thereof, or in respect of any indemnity contained in this Agreement, nor subject to any defense, set-off, counterclaim, recoupment, or abatement whatsoever arising by reason of any other indebtedness or liability at any time owing to the Company by the Manufacturer, and all payments thereafter to be made by the Company under this Agreement shall, to the extent so assigned, be made to the assignee against proper receipt therefor in form satisfactory to the Company. Any and all such obligations, howsoever arising, shall be and remain enforceable by the Company, its successors and assigns, only against the Manufacturer, its successors and assigns (other than assignees, as such, of rights, benefits and advantages assigned pursuant to this Agreement). The provisions of this paragraph may be relied upon by any such assignee as a continuing offer by the Company to waive any remedies which it might otherwise possess for the enforcement of any and all such obligations of the Manufacturer as against such assignee, which offer shall be conclusively presumed for all purposes to be accepted by the assignee by payment to the Manufacturer of the consideration for the assignment of any of the Manufacturer's rights under this Agreement.

ARTICLE 15. Assignment by the Company. All or any portion of the rights, benefits or advantages of the Company under this Agreement, including, without limitation, (a) the right to accept delivery of the Equipment, the right to take title to the Equipment, and to be named the purchaser in the Bills of sale to be delivered by the Manufacturer (b) the right to receive any and all monies due or to become due to the Company in respect of the Equipment and for all claims for damages

in respect of such Equipment arising as a result of any default by the Manufacturer and for indemnification under Article 8 and 9 hereof and (c) all rights of the Company to perform under this Agreement and compel performance of the terms hereof, may be assigned by the Company and reassigned by any assignee at any time or from time to time; provided, however, that no such assignment shall relieve the Company of any of its duties or obligations to the Manufacturer under this Agreement.

Upon any such assignment, either the assignor or the assignee shall give written notice to the Manufacturer, together with a counterpart or copy of such assignment, stating the identity and post office address of the assignee (if not otherwise stated in the assignment), and such assignee shall by virtue of such assignment acquire all of the Company's right, title and interest in and to the rights, benefits and advantages of the Company thereby assigned subject only to such reservation as may be contained in such assignment. Upon receipt of such notice, the Manufacturer agrees that if requested, it will confirm to the assignee that: (i) all representations, warranties, indemnities and agreements of the Manufacturer under this agreement shall inure to the benefit of, and shall be enforceable by, the assignee to the same extent as if the assignee were originally named herein as the Company; (ii) the assignee shall not be liable for any of the obligations or duties of the Company under this Agreement, nor shall the assignment give rise to any duties or obligations whatsoever on the part of the assignee owing to the Manufacturer; (iii) the Manufacturer will not amend, modify, terminate or waive any of the provisions of this Agreement without the prior written consent of the assignee; provided, however, that the assignee shall consent to any such amendment, modification or waiver the effect of which will not be (a) to decrease the purchase price of the Equipment, (b) to accelerate or postpone the delivery date of the Equipment, or (c) to decrease the value of the Equipment; (iv) the Manufacturer consents to the lease of the Equipment by the assignee to the Company, and to the assignment by the assignee to the Company for as long as such lease shall be in effect and no event of default thereunder shall have occurred and be continuing of all rights which the assignee may have with respect to the Equipment under any warranty or indemnity made by the Manufacturer.

ARTICLE 16. Defaults. No waiver of any condition of this Agreement shall be valid unless in writing signed by the Company's Purchasing Agent.
